THE JOURNEY TOGETHER

An online coaching tool to enable your peoples success

Te Heke Mai

Te Heke Mai is an app and coaching programme. Through working with participants and their employers, we are able to support significant professional development and facilitate positive working relationships.

The app gives participants the tools to set goals, and keep track of personal and professional progress, helping to maintain motivation and set the right path toward success.

Alongside this participants get a coach who checks-in with them, provides feedback and advice, and helps to guide participants on their journey.

How does it help you?

The wrap around support we provide helps to lift the load of pastoral care and onboarding for employers. We are here to coach your staff, support open communication, and facilitate meaningful working relationships.

The App

The Te Heke Mai app provides goal setting and reflection features to help individuals prioritise what they feel they need to work on to progress their personal journey's.

The Coaches

Our coaching team work with participants through regular phone calls, text, and chats to achieve their goals, talking them through whatever challenges they might face, and connecting them to valuable tools.

The Tools

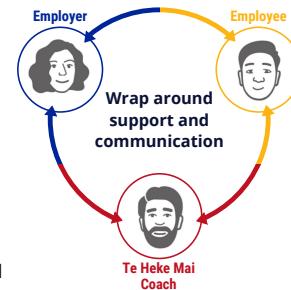

Each person is unique, so each programme and its' tools can be catered to individual needs, but the key tools we use across all programmes are goal-setting, check-ins, and feedback.
